ROLLING PAPER

ABOUT METABUDZ

The MetaBudz NFT Project is your chance to own uniquely grown collectibles with an exciting roadmap that will include merchandise, play 2 earn games, global meetups and more!

The MetaBudz are a collection of 500 blockchain grown budz farmed by The Artist Roy and hand picked by a team of NFT crazed pros!

MetaBudz are impossibly cool and mostly cheerful but there are already rumours rumbling deep in the Metaverse of mutant strains and more so keep an eye out for future collections!

THE METABUDZ COLLECTION

The MetaBudz are a collection of 500 randomly generated 3D NFTs created by The Artist Roy. Each trait has been individually 3D modelled and added to a collection that contains some of our favorite strains.

Every MetaBudz NFT is unique and whilst some traits are common, some are not!

There are 68 variations in the MetaBudz collection:

14 Strains (Heads)	10 Backgrounds	12 Eyes
12 Mouths	16 Arms	4 Pfp Powerups

Hidden within the collection are 10 custom modelled 1:1 NFTs!

METABUDZ PASSIVE INCOME

How Our Passive Income Works

- We will launch a token on the ETH chain. Name and ticker to be announced. The LP will be funded from the first set of NFT sales, so there is no private sale or presale to take the initial LP. This will mean the LP will never go below the starting LP.
- Starting LP will be between 30k and 50k and will always be topped up from royalties of NFTs sales on the open market, meaning there's always a good price value to the tokens you are gaining.
- Holding a Metabudz NFT will earn you tokens daily that you will be able to accumulate and claim whenever you want. The more you own the more daily tokens you will accumulate.
- When our play to earn game is released you will be able to grow your weed plants. There will be many features to enable you to grow bigger and better plants. Once the plants are cut down you will have x amount of weed in your possession. You can then sell this for the ETH token or stake it to accumulate more tokens over time.
- Once the MutantBudz are released, owning an original MetaBudz will get you a guaranteed WL and 1 free MutantBudz NFT when launched. The bigger news is what MutantBudz will bring. Owning 2 MutantBudz and 1 original MetaBudz will enable you to create a MegaBudz NFT for free.

**The idea is that holding a MetaBudz NFT will pay for itself over time and then become a passive income that's all profit. All MetaBudz NFT holders will get an airdrop of the ETH token at launch.

COMMUNITY

Being a MetaBudz holder will get you exclusive access to The Canna Verse Coffee shop, a social location based in the Metaverse.

Holder will be able to socialize with other cannabis culture enthusiasts creating a members only exclusive club.

The coffee shop will have a counter where you will be able to purchase MetaBudz Merch and cash in your tokens collected on our P2E game.

You will find how to guides on growing, best practice and how to find you perfect strain. There will be a notice board on upcoming events and meet ups for holders. Our first location being Amsterdam.

Future plans for the coffee shop will include partnerships with dispensaries enabling order placement for your cannabis materials, Strains, Merch, Seeds and research materials.

This is a community driven space with regular member meetings where like a DAO, everyone will have a say in the next steps and be able to vote on suggestions. Yes the team have a roadmap and plans to work on, but we want to become bigger than that and constantly grow. Taking feedback and introducing a voting system will enable us to move forward with bigger ideas and a bigger backing as a collective.

NFT projects only work with a strong community.

CORE VALUES

Community

Our community is a safe place where likeminded folk can smoke up and geek out together about the project and we ask that all our members embrace respect, politeness, diversity, positivity and avoid paranoia!

Development

The MetaBudz team are 100% committed to the roadmap and long term continuation of the project which, with our supportive community, will see the MetaBudz brand explode in to The Metaverse and beyond in 2022!

Four-Twenty

Cannabis culture and the 420 concept are hard wired in to the MetaBudz NFT Project. We are a community passionate and proud about the culture of cannabis and we all chuckle at 4:20 every day!

Culture

The MetaBudz NFT collection is a huge celebration of cannabis culture. As a community we encourage extreme geekiness strongly...especially if it involves getting baked!
